

Principia® News August 2012

Even Faster Downloads

eDelivery is the fastest and most cost-effective way for you to get Principia updates. There's no waiting for discs in the mail—around the sixth business day of each month, the full Principia update is available for direct download, and eDelivery is also cheaper than a disc subscription. Since January, we have streamlined Principia to decrease the size of the download by 11% while simultaneously providing an additional 350 Global Fund Reports. Be on the lookout for more eDelivery speed improvements in upcoming months.
